

3M™ Super Close Projection System SCP740

For the ideal projected image to match the latest in WXGA notebooks and popular video formats, the 3M Super Close Projection System SCP740 is the solution you need. The first high brightness, WXGA projector to be available with super close projection technology, the SCP740 has the benefits of DLP™, Brilliant Color™ DVI-D connectivity and an integrated wind tunnel for fan noise reduction. Works better than traditional ceiling mounted projectors because the extreme off-axis short throw reduces light in the presenter's eyes and the full connectivity makes it the perfect tabletop media hub too!
